

PETROPHANI

Στρατηγικές:

1. Τοπιοτέχνηση

2. Ελαφριά κατασκευή (συντήρηση)

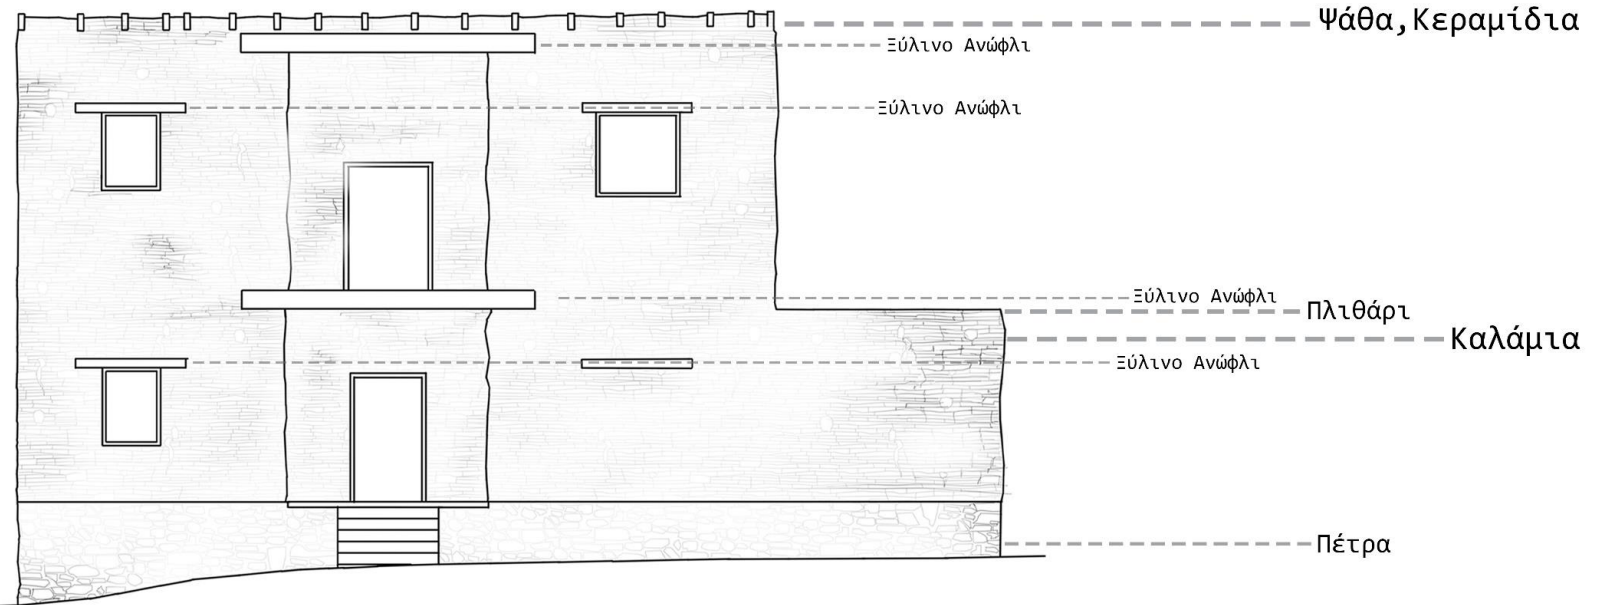

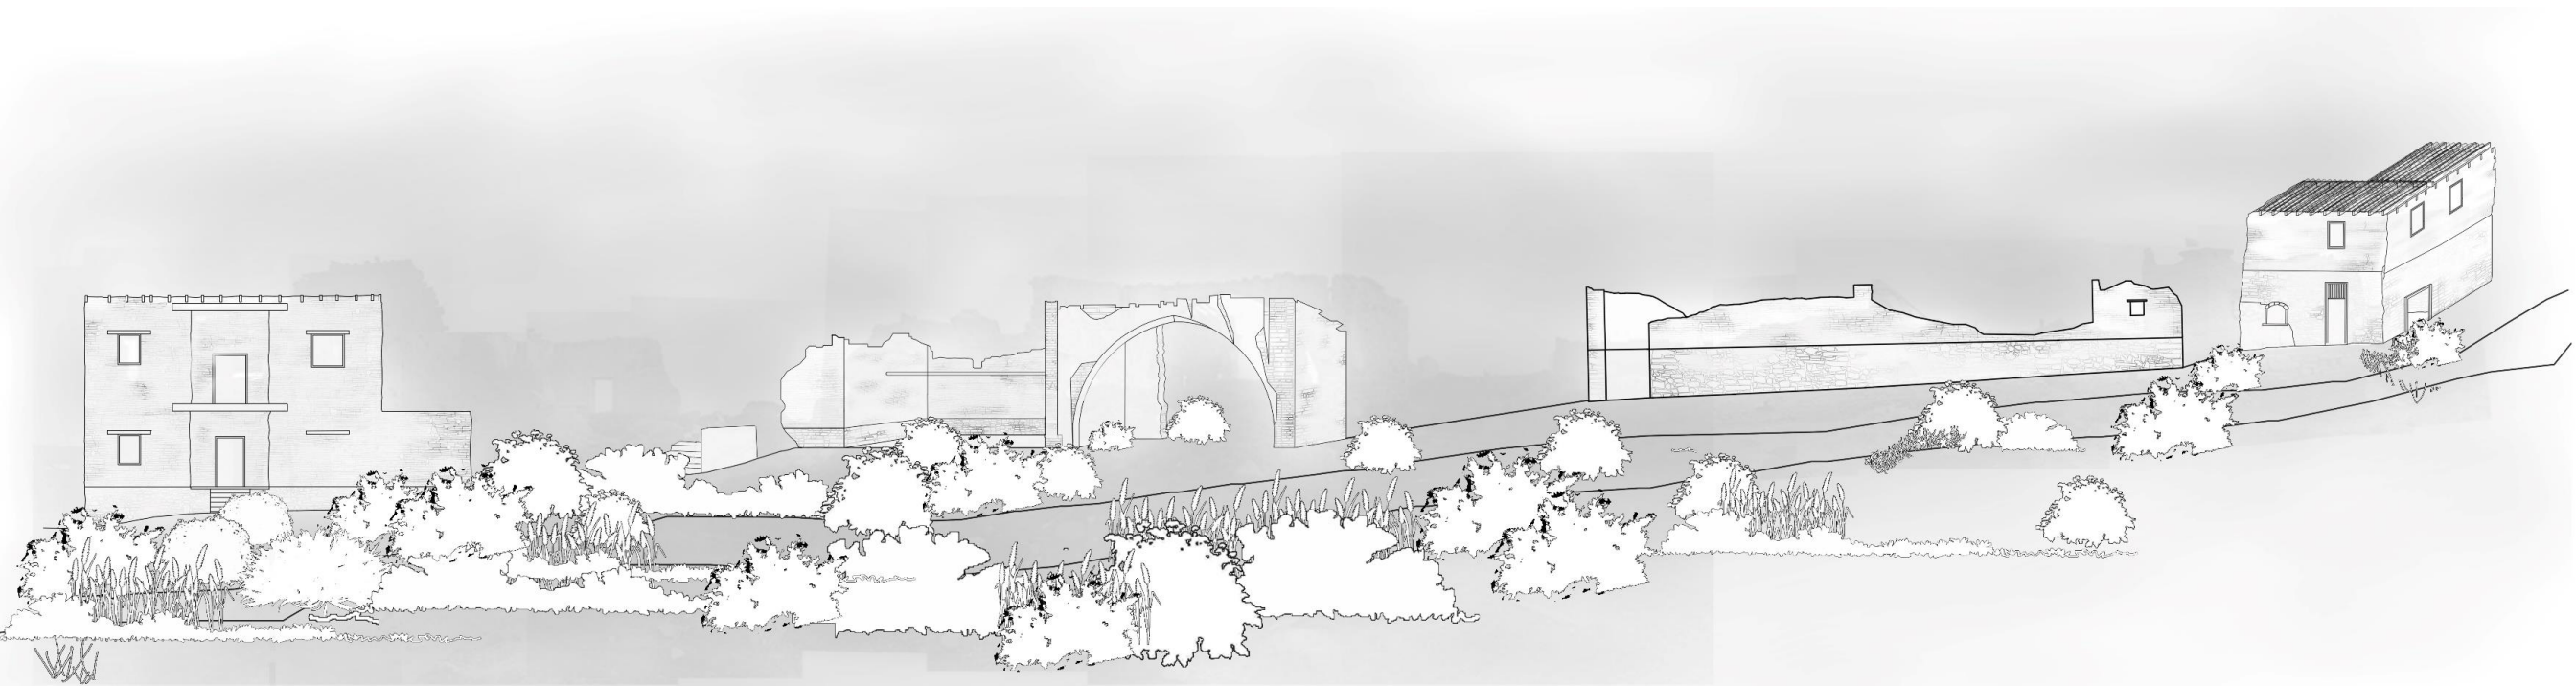

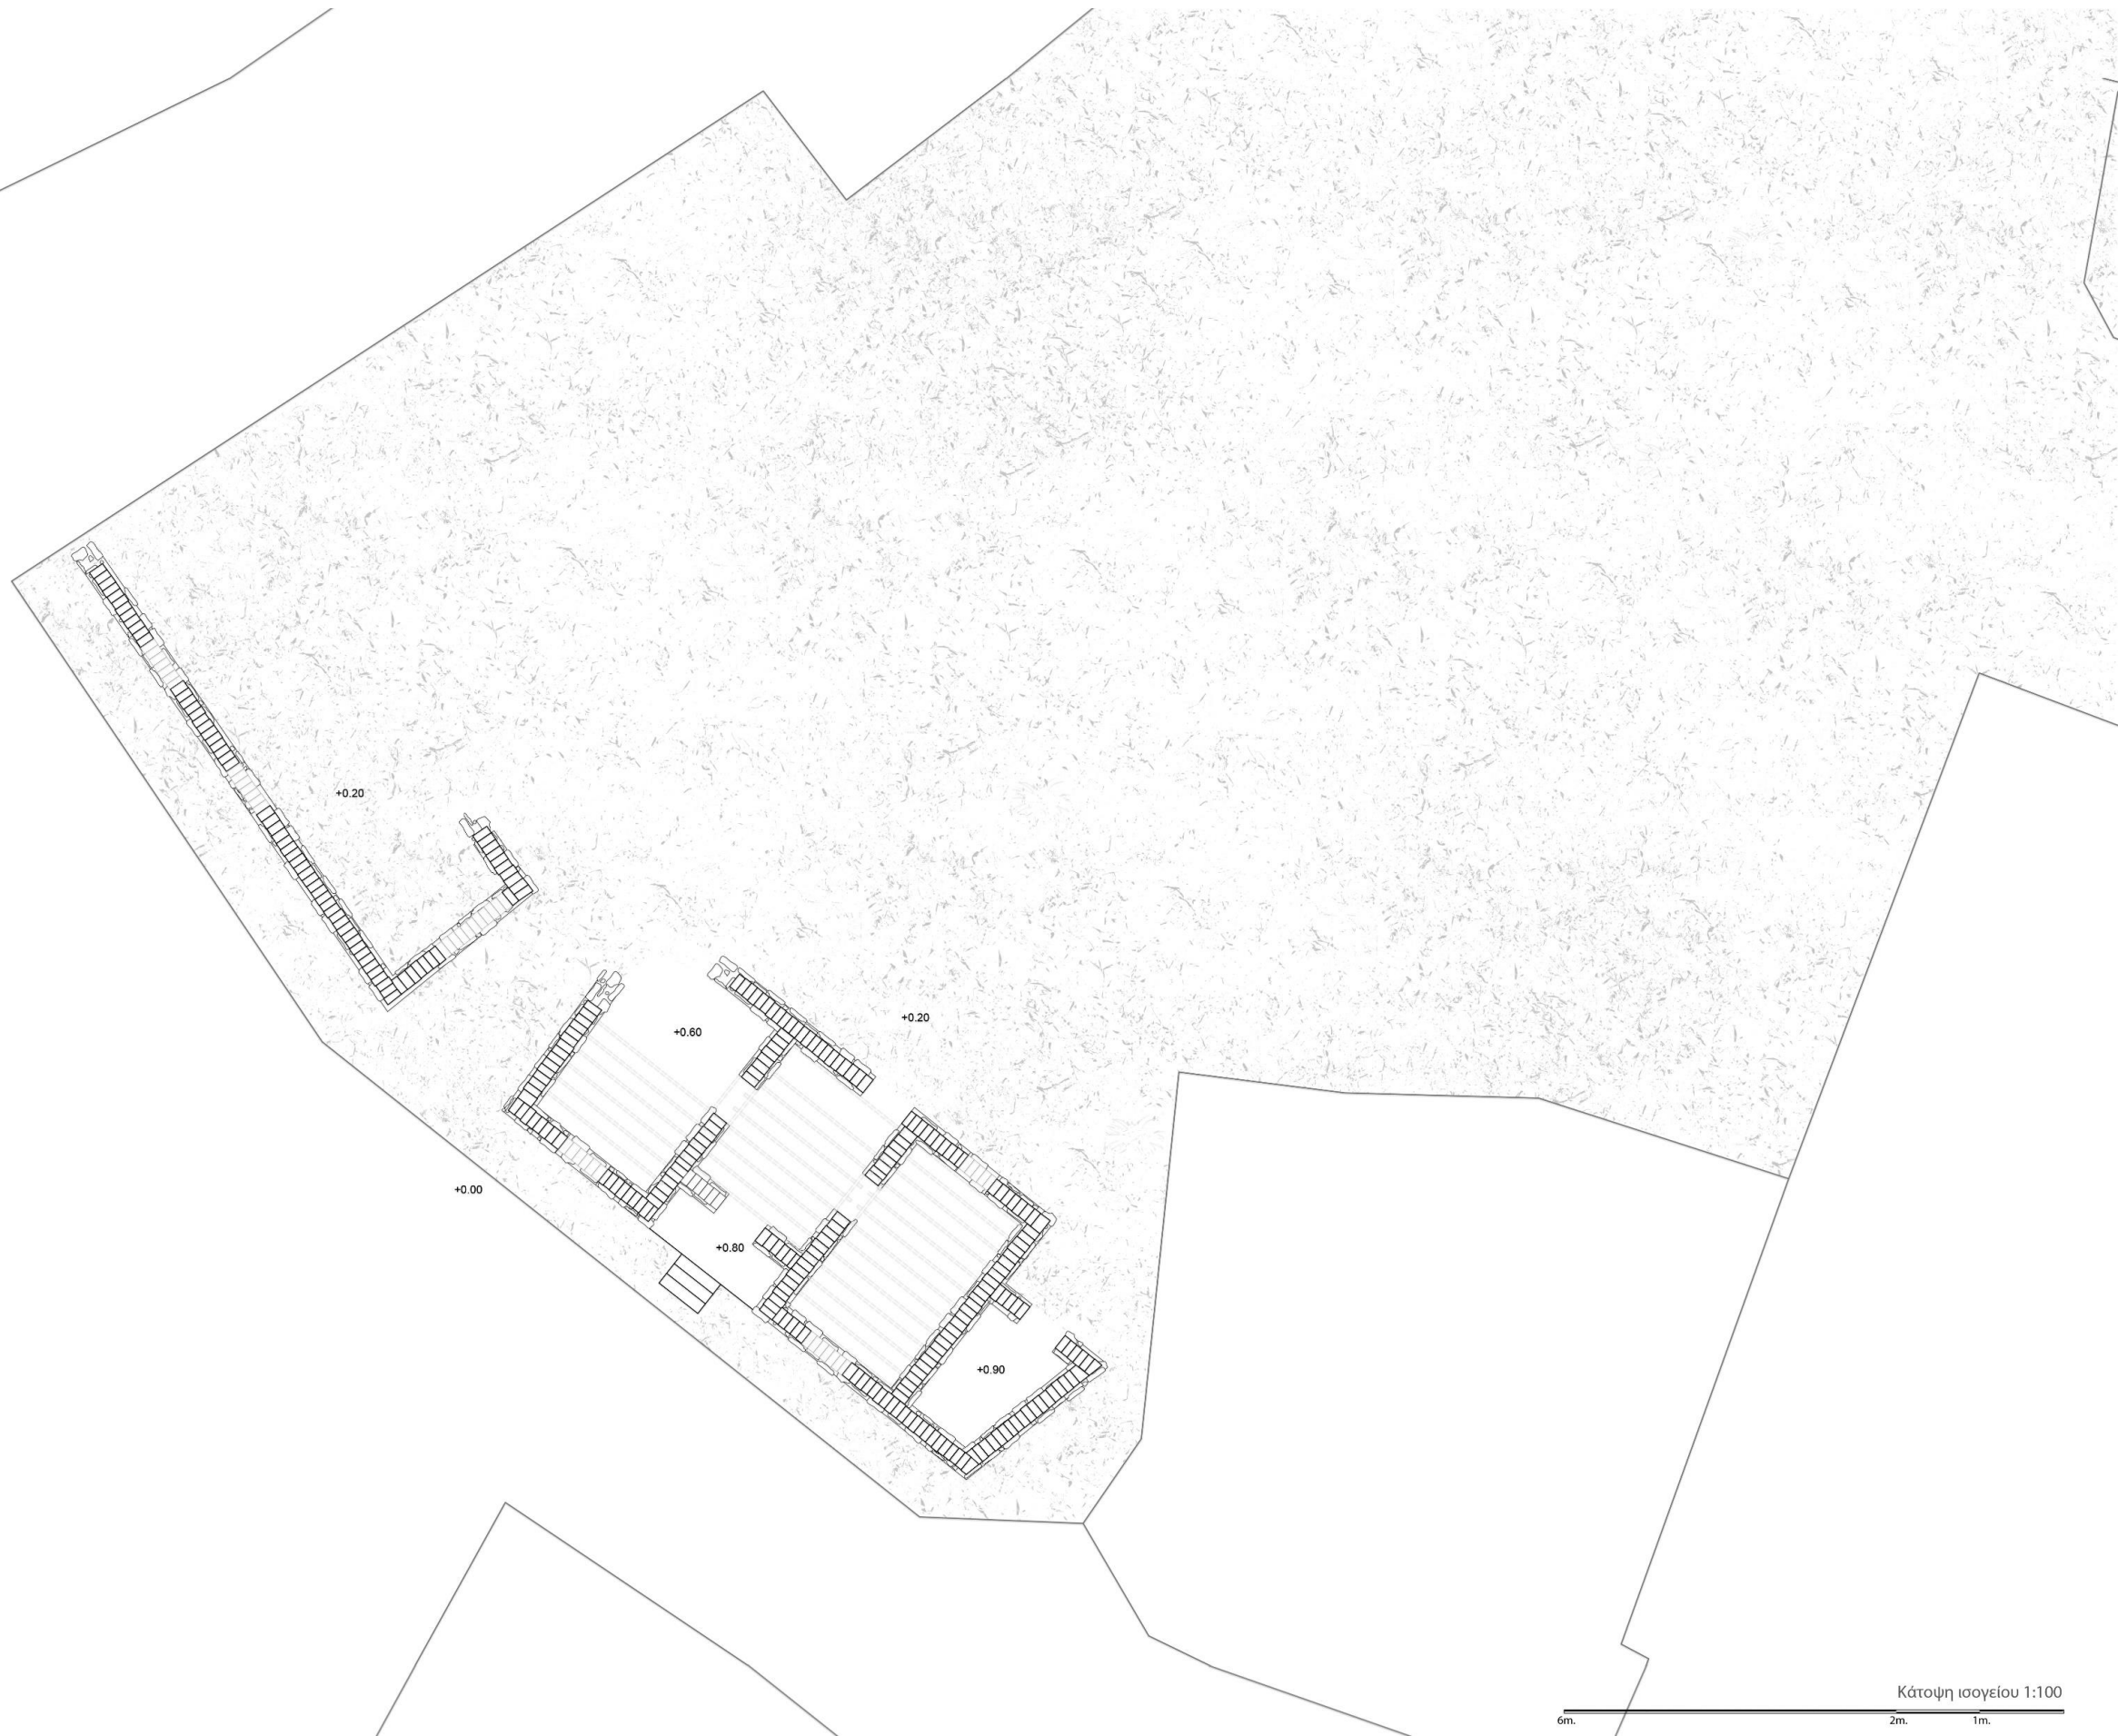

3. Αποκατάσταση

Πρόγραμμα:

Έχοντας υποψή μας ότι το χωριό θα λειτουργεί ως ζωντανό μουσείο θα δημιουργήσουμε τρεις στρατηγικές τις οποίες θα εφαρμόζουμε στα διαφορετικά κτήρια αναλογά με την κατάσταση στην οποία βρίσκονται. Η πρώτη στρατηγική αποτελεί την τοπιοτέχνηση του χώρου δίπλα από ερείπια, η δεύτερη την συντήρηση κτηρίων με την χρήση ελαφρούς κατασκευής όπου δεν χάνεται ο χαρακτήρας του ερειπίου και η τρίτη την συντηρητική αποκατάσταση κτηρίων που διατηρούνται σε καλή κατάσταση.
